

SBN-2209: Ceiling Enhancement and Improvement Act of 2025

Filed on April 9, 2025, by Alto, Zhairalyn B., Combenido, Jessa Lauren D., Privaldos, Lawrence Jade S.

**AN ACT TO REPAIR AND ENHANCE THE CEILING
STRUCTURE AT PAMANTASAN NG LUNGSOD NG SAN
PABLO TO PROMOTE SAFETY AND REDUCE HEAT FOR
STUDENTS AND FACULTY**

EXPLANATORY NOTE

This bill seeks to mandate the repair and improvement of the ceiling structures at Pamantasan ng Lungsod ng San Pablo (PLSP) in response to safety concerns and the increasing discomfort caused by extreme heat within school facilities. The existing state of the ceilings in various classrooms and offices presents a possible danger to the safety and health of students, faculty, and staff. Additionally, inadequate insulation leads to increased indoor temperatures, impacting the learning atmosphere and overall efficiency.

The financial resources required for executing this project will be obtained from the budget allocation of the Commission on Higher Education (CHED), a local agency.

This legislation encompasses all educational structures, classrooms, offices, and various school facilities at the Pamantasan ng Lungsod ng San Pablo that ceiling repairs, replacements, or enhancements in insulation.

The main beneficiaries of this initiative are the students, faculty, staff, and upcoming learners of the Pamantasan ng Lungsod ng San Pablo, who merit a secure, supportive, and a pleasant setting for education and employment.

This legislation seeks to guarantee the safety of all individuals on school grounds and to enhance the educational environment by lowering the heat levels in classrooms and facilities.

The passage of this bill is sincerely requested.

Alto, Zhairalyn

Combenido, Jessa Lauren D.
